STRIKES WELLES AND FIGHT RESULTS

Secretary of Federation is Roughly Handled and Controversy for Prisoner Results Between Military and Civil Powers.

DENVER, April H .- President Charles H. Moyer of the Western Federation of Miners, who arrived in Denver today in ustody of state troops after several weeks incarceration at Telluride, where martial law is in force, in consequence of labor troubles, was taken before the state supreme court this afternoon under the writ of habeas corpus which had been issued in his case. At the Oxford hotel he entered a hack with General Sherman M. Bell and Captain Bulkley Welles, the respondents to the writ, and the vehicle was driven rapidly to the statehouse, followed by thirty-two soldiers, who guarded the entrances to the court room, while the habeas proceedings were in progress.

Attorney N. C. Miller and Attorney John N. Waldron appeared in court for the governor and military authorities and Attorney E. F. Richardson in behalf of Mr. Moyer, Chief Justice Gabbert and Justice Steels were on the bench. Justice Camppresented by Attorney General Miller set forth that the petitioner, Moyer, is lawfully restrained of his liberty under and pursuant to the express command of the governor and commander-in-chief of the military forces of the state of Colorado, as a military necessity in the course of the suppression of an existing state of insurrection and rebellion in the county of soldiers and sailors. Many of them have San Miguel, "that this honorable court is been arrested in the Korsakoff with arms not lawfully vested with jurisdiction to make or render any further order whatroever, in said proceedings except to dismiss and quash said writ."

RUSSIA ISSUES PAPER CURRENCY

Czar's Government Begins to Figure

on Cost of War. ST. PETERSBURG, April 21.-Russia ha

made a new issue of \$15,000,000 in paper currency against free gold in the State bank. At the ministry of finance it was explained that it was an ordinary issue and in no sense was forced. Under the law paper is issuable to double the amount of gold, up to \$150,000,000 gold, an excess of which paper lasued must be covered, ruble for ruble. In the State bank there is in round figures \$400,000,000 in gold, which FIGHT WORLDLY AMUSEMENTS would permit of an issue of \$550,000,000 in paper, but the paper issue at present only BROUNTS to \$350,000,000.

All sorts of figures of the cost of war are printed abroad The correspondent of the Associated Press is authoritatively informed that the daily expenses are averaging \$750,000 and it is estimated that a year's expenditures for the war will total \$250, 000,000. To meet this there existed a free balance of \$50,000,000, which was increased to \$115,000,000 by reductions of the ordinary budgets, leaving ostensibly \$135,000,000 to be found. But a portion of the latter is made up by the increased earnings of the railroads owned by the government, it being in reality a question of bookkeeping. How the balance is to be raised has not yet been determined. No foreign loan has been arranged and none is desired if it can be avoided, as practically the total of the war expenditure will be raised at home. The ministry of finance believes it may be easy to float an internal loan late in the summer or fall.

Emperor Receives Indisputable Proof

from Viceroy Alexieff. ST. PETERSBURG, April 21.-All doubt as to the cause of the destruction of the battleship Petrpavlovsk and the damage to the battleship Pobleda at Port Arthur is dissipated by the report submitted by telegraph to the emperor April II. In it Viceroy Alexieff stated in a way that leaves the matter no longer an open question that mines were responsible for the dinaster.

The admission of the presence of Japaese ships off Port Arthur on the night preceding the going out of the Russian ships, which were watched by Admiral Makaroff, tends to establish Vice Admiral Togo's claim that his ships laid mines on which the Russian battleships struck. The viceroy's report was sent only after a thorough investigation, ordered by the em peror, had been made.

The Russian officials also fall to under stand the surprising blunder caused by the mistake of the Russian torpedo boat destroyers in taking the Japanese torpedo boats for a Russian flotilla, which resulted in the loss of the Strashni,

MORMON MAJORITY KILLS LEGISLATION

Before Campaign, Witness Testifies, Chairmen of Party Organisations Go to Salt Lake and Have Things Fixed.

WASHINGTON, April 21 .- The feature of oday's hearing in the Smoot case before the senate committee on privileges and elections was the testimony of Angus M. Cannon, for twenty-five years president of the largest Mormon stake in the world. The testimony was of a personal character, dealing with the conviction of the witness on charges of polygamous cohabitation, and was dragged from him under protest that he be protected from any peril or liability to prosecution for what he revenled.

When assured that his plural marriages under the statute of limitations could not be used as evidence-against him, he answered most of the questions. The same frankness was not apparent, however, when the witness was pressed to reveal the nature of the oath he had taken in the Endowment house.

Brigham H. Roberts was again on the stand for a short time

He said that after the election one or the other usually felt that things had not been "all right." Mr. Cobb related the efforts before the legislature to have called a constitutional convention to enact an amendment to test Mormonism. The amendment was defeated several times and finally John Henry Smith visited Boise and soon afterward the resolution was adopted. Counsel for the prosecution examined Mr.

Cobb relative to the influence Mormons are alleged to have attempted to bring to bear for the rejention of Senator Smoot. This was shown, said Mr. Cobb, by a delegation of the Idaho legislature, which called upon W. E. Borah, a candidate for the senate, and asking him what would be his attitude as a United States senator if the case of Senator Smoot should come up.

At the afternoon session Angus M. Cannon was called to the stand. He said he has lived in Salt Lake since 1849, but had been blessed in the Mormon church when he was 5 years old. He is 70 years old and now holds the position of patriarch in the Mormon church, having been designated for that position by President Joseph F. Smith about two weeks ago. Patriarchs, the witness said, rank next to the twelve apostles in dignity. Mr. Cannon said that for twenty-eight years he had been president of the Sait Lake Stake of Zion.

PREPARING FOR VACATION TIME Ambasadors at Washington Begin to

Prepare for Summer. WASHINGTON, April 21 .- The German embassy will be established at Lenox, Mass., for the summer and the ambassador will raise the embassy flag there early in June. The ambassador expects to remain there until October. He will return to Washington early in that month to complete arrangements for the unveiling of the statue of Frederick the Great at the army war college here October 20. Baron von Dem Bussche, first secretary and counselor of legation, probably will go on leave of absence in October and will take his family to Germany. With the exception of Mr. Scheller, second secretary, the ambassador and the Baroness Speck-Sternberg will have the entire embassy staff at

Lenox this summer. It is probable that Sir Henry Mortimer Durand, the British ambassador, will fix the British embassy also at Lenox for the summer, but he will not leave Washington until late in June. Mr. Raikes, the first secretary, and Mr. Waterlow, the third secretary, also shortly will go on leave, and it is probable that both will be trans.

The French ambassador and Mme. Jusserand will spend the summer in France and the embassy probably will be transferred to Manchester-by-the-Sea, with the first secretary in charge.

Private advices recently received at the Italian embassy say the Italian ambassador and Senora Mayer des Planches will return to this country in June, but the locallty of the embassy for the summer has not been settled upon.

COLD. BUT NOT DISASTROUS

Abnormal Weather is Said to Cause No Harm to Fruit or Grain.

There may be some uncomfortable features about the Manitoba character of the weather doing business in this latitude during the past few weeks, but there is some little compensation in the fact that it is not doing the fruit a bit of harm. The trees are a little chary about leaving, too, with the hopes of better weather to follow. However, old weather seers maintain that a backward spring means a big erop year, particularly for small grain and grass, and these are the crops that Nebraska is most deeply interested in.

Spring plowing has not been seriously interfered with, and in some sections of the state oats planting already is completed or is under progress. This is especially true in the southern part of the state.

The temperature yesterday morning at o'clock was 34, at Hartington 32, Oakdale 32 and it was raining at Valentine, North Platte, Dodge City and Cheyenne. SEASONABLE FASHIONS

LADIES CORSET COVER AND PET-COAT.

Nos. 6060-6061 .-- In the dainty design shown here we have a simple little model that is so constructed as to bring the bias of the goods under the arm and over the bust with only enough gathering at the top to give a moderate fullness and slight bloused front. The back lines lie flat and the waist edge is tight fitting except for a few gathers in the front. The only seam in the garment is on the shoulders. The model, as one can readily see, has especially good lines, the bias of the goods under the arm insuring a good fit and prevents the cover from "riding up." The matter of frimming is optional; the pattern furnishes the foundation which may be simply or elaborately trimmed, according to one's taste. The style illustrated is very much in vogue at the present time.

In these days no one thinks of putting a lining in a skirt; a drop skirt or petticoat skirt is used instead, not the petticot with ruffles and frills, but a gored skirt which fits smoothly under the dress and which has, instead of ruffles, circular flounces to give the proper flare to the dress and which are not so heavy as ruffies. The design shown has been made especially for the new dress skirt, and is close-fitting, not necessarily tight, but close to the figure. This style skirt may se made of lawn, muslin, or of silk, sateen or any material suitable for a petticoat or drop skirt. The pattern provides for a medium sweep, dip or round length.
